Dear ones. I am writing only a couple of lines words.  
 because I went through a lot and am devastated from  
 all this. What is there to write. He died very quickly  
 and almost till the end was conscious. I did not  
 leave him almost all through his illness, but was not  
 present when he died. Nobody expected such a quick end  
 it hurts me even more, that 10 minutes before he  
 died he asked for me twice. In general his parting  
 with me was very moving, he touched his lips  
 to my hand and told me: My best to you; live  
 well. This is the end. My life is coming to an end

*7/II 1900.*

My dear ones dear many thanks happy death, the new epoca  
 your heart is paid out here. This meant? Encourages one?  
 continues in motion so calmly we repeat again. So we are  
 ready and now motion like leaves down - or spa the sleep  
 in death we have. Leaves we suddenly make leaves leaves  
 who who want. Nature, who for 10 minutes to complete  
 set the page without means. Reading is now all reading  
 unimportant appearance, unimportant mass psychology  
 silent, no voice. Rather do we feel exalted than, now  
 gained heart: sublime repose. Consciousness, consciousness was  
 small! - Men at rest become like a spe-  
 краину eyes after death - who no more changes  
 known us in his life. Known  
 To those who are experienced. By you I understand  
 pp. god. Death by no one else like unimportant into  
 silent generation who does not expect. Men by you can  
 be phys. regular - no unimportant in - the grass. - That is the  
 pulna death a large and important government always. Be so

Now he lies, gigantic and beautiful among flowers  
 and on his face is peace and beauty.

The funeral will take place Sunday. There will  
 be representatives of the French Workers Party

Vera is still in the hospital. About P. L. death she found  
 out from the newspapers we are very moved by yours and  
 others telegrams from Bern., especially from the socialists.  
 Many hugs - Cemyen.
