p. 14

2 concision of title/first line, almost offhand, telegraphic, apodictic
3 w/ presumption of order, containment, list

4 1/ The leaf: shrouded, note (communication?) of blatted rot, -

5 Its green life 11111 - very nice 1010101 PR 10101 - blown off,
6 flown off, as if lightly attached - 1010101 as prep. line?
7 capriciousness, detachment of the storm

8 Fall my way in last stanza - shrouded of my bed soaked up
9 my desolation 1010101 The 10101 - animated speeds -
10 cold under hardened piles of shit, repetition + pathos

11 Who is worse off?

12 2/ Joyous laughter of a young woman hushes on window,
13 hinting of night secrets & the folds of black dense sep. like = 10101

14 1010101 - contrastive analogy - here his blood is
15 aroused, lips trembling hungrily - speech desire &
16 goes off into the exile of the night
17 7 lines to 10 lines + space

18 Final coup: The leaf trembles on my bed/shrouded

20 Binary world of eros + thanatos

21 Distance of the speaker from the world: object's claim
22 of veiled distance to speak to him; he remains outside

2' 238 YIN DND

Another listing/counting poem

Seemingly disorganized, counting emotional states/types

1/ 222K 238 (5 lines)

addressed to You, the outsider, knocking ~~off~~ on locked door of
secret garden - snow that makes things bloom + grow

2/ 22' 22 238 (4 lines)

~~restrained~~ restraint that gives way to tears + agitation
as the ship's horn blows + the mast recedes

3/ 21N132 238

You sit at twilight + mourn the past + future + then you
see a butterfly that has flown into the window in its dying
flutterings + very well described - graphic materiality
that is the exception to the rule - and then you
are enveloped in XAND 238

4/ 28' 238

wandering by golden sheaves - creative silence heard only
by ears of a poet - sudden at verge of forest the shadows of
imposing pines, armed w/ sharp needles + threateningly bar
your entrance - "Don't come near; go back to the city!"

You are overcome by desire to bow down + seek healing
for wounds you have brought w/ you from the city - They, again
"Don't raise your voice; here is silence!" Wander further in +
find birches, pale in their anguish like captives -

Tears well in your eyes over shredded pine leaf - you lie down

1 The -moss waft from you, suddenly purified, you hear
2 voice of God walking bet. trees + you are enveloped by
3 by 28'-238', 20137-238

4 Disproportion of sections - on the way to the forest

5
6 (2000) '000' fK

8 Ode to self-soul - hymn to the inner life of MF
9 assumption of depth - beyond fathoming - genesis + end
10 kiss in you'll heaven + sea at sunset

11 You wander who end within the 10'2 of the corner - the 10'7K
12 wanders at you - you hover within the 10'7K + the 10'7K is
13 within you.

14
15 You are composed of layers - like ancient layers of snow -
16 Each layer composed of shards of ancients

17 In your depth: all the preceding generations gope like drops of
18 water from depth seeking to rise

19 many heavens unfolded within you - ancient father I knew not that
20 have become a 2017'

21
22 At moments of peace + quiet, I hear the murmurings from
23 the depths like whispers of the drowned - catalogue of sounds
24 from the ~~anguished~~ anguished - I see a myriad of eyes
25 gazing within me - all the voice are demanding their
26 lips - ancient martyr

1 This I know: The warner will get louder in you
2 I'm forever tormented about -

3 When there is a ferocious movement in me that it
4 is the soul of my father, ^{ne} JINAP 100, like a wandering
5 wild animal - primal dread that ~~gr~~ grips from time to time
6 comes from him - his biological father, or primal relative?

7 When I cry into the night in despair, it is /NIE 5k
8 A religious feeling will come over me - it is the soul of
9 my ancestors, the ancient in Pasi 100 - I stand ~~sp~~ separated
10 at a distance, w/ disrespectful smile on my lips or
11 wiping a tear from my eye

12 This I know - they day will come + the words inside you
13 will fly off + I'll be like the fly after the spider has finished
14 w/ him - ~~for~~ you will leave me + wander off to another
15 world + w/o you the war bet-generation will return or
16 I'll rest forever; but you are a P'P'P'J'N'P' ...

poem in tradition of Bialik's ~~poems~~ poems of wrath -
full of scorn for the majority, the public realm
But unclear what specifically is being railed against
Also, what the speaker is going to do instead is unelaborated
given only in first 2 lines

I will be at peace in the silence & tie crown of its (the silence)
silk embroidery - that's it!

Tor: storming the peaks, vertiginous effects,
injustice, victimization, looting, mimicry

Sustained stream of indictment of the haughty,
world changers, desire, ambition, competition -

Secret of P13N3 (however understood) ^{magically} unleashes extraordinary
power - when it touches you, it is like a powerful stimulant
