Dear David,

I am most pleased that you have agreed to join us in forming a Task Force on Jewish Liturgy for Yom HaShoah. I think that we can work well together and I hope that we can be enriched by one another. Hopefully, we can make a substantive contribution together to Jewish liturgical life.

Given the pressures of the holidays, I am having some difficulty in setting a date for the first meeting of our group. Therefore, we would kindly ask you to check those dates below which are possible for you and we will try to see which date is least inconvenient for most of us.

At your suggestion I have been in touch with Hillel and will try to work something out with him. Thanks for the suggestion.

I look forward to working with you. Best wishes for a happy and healthy New Year. Hopefully, it shall be one in which the reality of Jewish existence will be transformed by peace.

Sincerely yours,

  
Michael Berenbaum
