My phone numbers: My telephone number will probably be 7-499-973-43-78.

My cellular number +7-962-917-35-69

As regards ordering food from the kosher restaurant, we usually make one order for two-maximum three days, so one is able to warm it in the microwave afterwards. The exact arrangements will be made toward your coming, so we are happy to receive any wishes and specifications in the meantime.

Dear David, the 3-rd year group has one common adress - judaika066@gmail.com, and there are 7 personal e-mails of the students of the 5-th year group. Do you need them all? I could send them to you no earlier then in the begining of next week. It will be almost 13-th.

Dear David,

I hope this finds you well.

We haven't be in personal touch some long time. We just came back after our Sefer Summer school for students in Poland, and I have mixed fillings, but I think it was highly useful for our "kids".

I dare to introduce you one of "Sefer' kids", probably, one of the most talented among them - Dima Slepovich (please find his CV at the attachment), because he finally left Lukashenko's Byelorussia now (I was sure he'll do it some day) and since recently lives in New York. He was very active in gathering Jewish folklore in Byelorussia (under guidance of his Professor, unfortunately last Nina Stepansky of blessed memory), he took part in many Sefer' conferences, workshops and schools, and I can say, that he is a brilliant young man not only as klezmer musician, but also as a researcher. Allow me to be once more an Yiddishe mame and introduce him to you in hope you could help him to find a proper place in the States.
