Dear David,

It was very good to see you. Your paper went down extremely well and was extremely apposite. I liked it very much and would very much like to publish it in POLIN if you don't have any other place where you are intending to place it. We have also had a few requests for the written text, so if you don't object, I should be very glad if you could send it to me so that I can let those who want it have it. What you had to say came as a great revelation to a lot of the (non-Jewish) Poles present.

Thanks again for all your trouble,

Yours,
