David,

If you go ahead with your idea to discriminate between those M'at members who are members of your reading circle and those who are not, please include me in the former. I find your missives ~~a breath of fresh air in a list server~~ that is little but a classified advertising section. Indeed, I would suggest a segregated list for those who want to receive classified ads about nannies and tailors.

By the way, I sometimes send your articles to an Israeli friend who finds them a pleasant diversion from the depressing events in Israel. He (a secular Jew) is pleased to know that observant Jews still find so much to love and enthuse about in our ancestral home.

Please stay out of harms way.
