Dear Mr. Sharpton,
I received the copy of the Shetl Book by
Diane & David Rooker and have read it through
with increasing fascination of the mode and
manner of presentation. It is extremely well
done, of course, informative, readable,
authoritative presentation for teen-agers and
adults alike, who may be interested in
learning more about the roots of their
heritage that evolved in European lands.
Thank you for publishing such material.
Cordially yours
Emanuel Applebaum
